

Each individual hay bale implement from the "All American" line has been designed to provide maximum performance and extended usage for the owner. Only the highest quality materials are used to construct the finest quality hay bale equipment you can purchase.

Each piece of "All American" hay bale equipment must pass an intensive inspection process before it can be released for sale. Quality craftsmanship and superior materials make the entire line of "All American" hay bale equipment the best in the industry.

Features:

- 1 "Rust-oleum" industrial enamel paints for a quality finish, and rust protection.
- 2 Main bale spears are crafted from 2" solid steel for maximum support & stability.
- 3 Four sided, diamond cut spear points, for easier bale penetration.
- 4 Solid 1-inch support spears for extra control of bale during transport.
- 5 Forged steel spear available for all hay bale-moving products.
- 6 Category 1 & 2 hitches available for most hay bale moving equipment and utility lifts.
